

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MI Sterling Select Companies Fund ("The Fund") Accumulation Units

The Fund is an Authorised Unit Trust. ISIN: GB0002708922.
Maitland Institutional Services Ltd is the Manager of the Fund.

Objectives and investment policy

The Fund aims to grow your investment over the long-term (3-5 years) by investing at least 75% in shares of UK companies.

UK companies are those which are domiciled, incorporated or have a significant part of their business in the UK.

These companies will be smaller and medium sized companies, including companies listed on the AIM stock exchange, which have a market capitalisation of up to £5 billion.

AIM is the London Stock Exchange's International Market for smaller, growing companies.

Up to 25% of the Fund may be invested in non-UK companies, companies of a different market size, other transferrable securities, money market instruments, deposits cash and near cash investments and collective investment schemes (including those managed by the Manager or Investment Manager).

The Fund can use derivatives (financial instruments whose value is linked to the rise and fall of other assets) for the purpose of efficient portfolio management, with the aim of managing risk and cost.

Any income this share class generates will be reinvested to grow the value of your investment.

You can buy and sell units on any business day in London.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For full investment objectives and policy details please refer to the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The Fund is ranked at 6 because funds of this type have experienced high rises and falls in value in the past. Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases. The indicator does not take into account the following risks of investing in this Fund:
- Smaller company shares, including AIM companies, can be riskier as they may be more difficult to buy and sell and their share prices may fluctuate more than those of a larger company.
- In difficult market conditions, the value of some investments may be less predictable than normal and the Fund may not be able to buy and sell these investments at the best time or at a fair price. This could affect the Fund's performance, potentially reducing your returns.
- Investing overseas can bring additional returns and spread risk to different markets. There are risks however, that changes in currency exchange rates may cause the value of your investment to decrease and increase.
- For further risk information please see the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest
